

5002 Main Street, suite 4 ♦ Downers Grove, IL 60515

2015 Summer Intensive Apraxia Therapy

- ❖ Ten weeks **June 8 – August 14**
- ❖ Ages **33 months to 18 years**

With **three to five weekly sessions of speech-language and / or occupational therapy**, we will customize our intensive program to meet your child's needs.

An **evaluation is required** to be completed prior to starting the intensive therapy. You may provide an evaluation report from a licensed speech-language pathologist or occupational therapist which has been completed in the past six months. We will determine whether further evaluation is needed. With your input, we will create a formal treatment plan with short term goals to be achieved by the end of summer. **Consistent attendance is imperative to achieve these goals.**

We are in-network with BCBS PPO. Other insurances may cover your services at their out-of-network percentage. We recommend you **check with your insurance to determine your benefits.**
